

Elevating Your Client Engagement

Uneo Health is a Maryland-based software company with a mission to connect consumers' wellness journeys with the support and services they need to thrive.

Who We Help:

Outpatient clinics and behavioral health centers working with populations that can be challenging to engage.

How We Help:

The Prosper platform supports the client's wellness goals, helping them stay on track with their care routines, work on their emotional and mental health, schedule follow-up care, and track progress toward their goals. Information can also be shared with their provider. Clinics can use these insights to guide programs.

How Prosper Supports Your Team:

- ✔ **Customized Support:** Prosper's tools are designed to help clinicians and counselors provide personalized health support - addressing issues such as stress, anxiety, and social challenges.
- ✔ **Daily Reminders:** Utilize personalized reminders for daily check-ins and care plan routines to keep your clients on track with their wellness goals, offering unique insights to guide the next visit.

Your Clinic / Agency Gets:

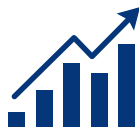

The Prosper Platform

Customization

Messaging

Insights

Prosper Highlights:

- Available in all 50 states in both English and Spanish
- Currently used by clinics, agencies, and counselors across the Mid-Atlantic including Johns Hopkins
- Over 100,000 wellness check-ins to-date with a 4.8 out of 5.0 on Apple
- Over 87 percent of users report a positive mental health impact
